Examiner's amendment/Reasons for allowance

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: see **attached** markdown copy of amended claims, pages 1-12, claims 1-90.

2. Authorization for this examiner's amendment was given in a telephone interview with R. Thomas Payne on 9/23/03 and 9/30/03.

3. The following is an examiner's statement of reasons for allowance: claims 1-28, and 45-90 are allowed over the prior art of record. Claims 1, 15, and dependent claims are directed to a process of making a membrane. The prior art of record fails to teach or suggest the process of making the membrane without support and in a continuous mode, including all the steps as recited in the claims. The prior art of record teach providing a support embedded within the membrane to provide support, or providing the membrane with a support supporting the lower layer deposited on the membrane, formation of the membrane from at least two dopes without support is not disclosed in the prior art of record. Claims 59, 73, and its dependent claims are directed to a membrane produced by the particular process discussed above, and are also allowed over the prior art of record, based on the structure provided on the membrane when the layers are formed simultaneously and without support, as compared to layered membranes of the prior art, which are formed from a single dope, or are layered while still wet, or are made with asymmetrical structure by controlling process conditions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
